

ALKALINE UF water filter system

Product introduction

Adopt ultra-filtration membrane as main water treatment media, with helps of multiple stage pre-filtrations and post-filtrations, Eurolife Ultra Filter can effectively remove suspended sediment, rust, residual chlorine, organic matter, colloid, bacteria, and virus in drinking water and improve water taste.

Adopt Ultra-filtration membrane as main water treatment media, with helps of multiple stages pre-filtrations and post-filtrations, Ultra filter can effectively remove suspended sediment, rust, residual chlorine, organic matter, colloid, bacteria and virus in drinking water and improve water taste.

Food grade CPAN material

It is made of food grade CPAN, free of lead, benzene and mercury. The CPAN membrane has good hydrophilicity, which is easy to flow without clogging.

Specifications:

Item No.: L-DF202

Designed water flux: 200L/h

Product size: 304x295x348mm

Feed water source: Municipal tap water

Operating temperature: 5-45°C

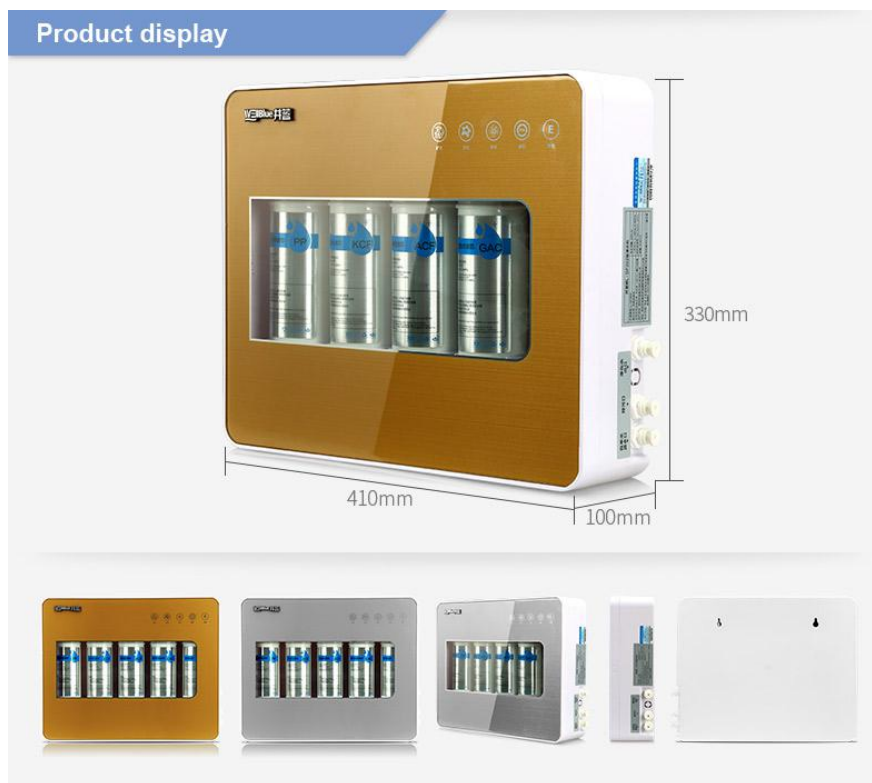

Pressure of feed water: 0.1-0.4Mpa

Shell material: ABS

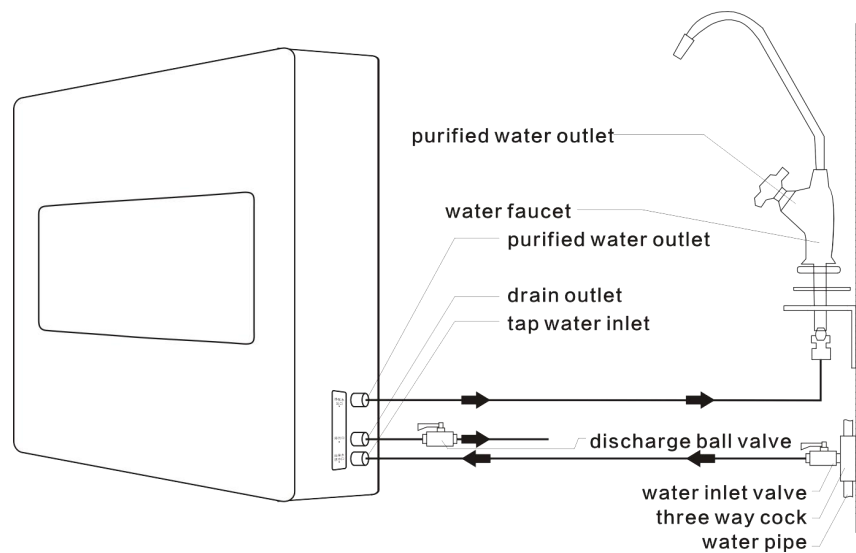

Cartridge material: PP filter + Compound mineralizing filter + Compound Alkaline filter +
Anti-scale Carbon Filter + UF filter

Installation & Operation

- a. Inlet
- b. Purified
- c. Drainage outlet
- d. Drainage valve
- e. Purified water faucet
- f. 3-Way Valve

Filtration & Functions

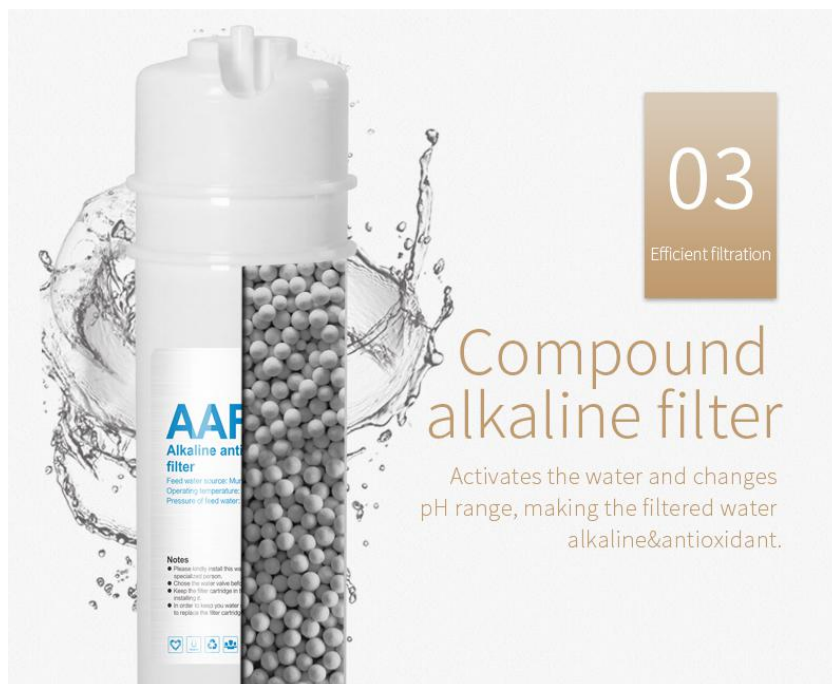

Stage 1: PP filter

Assists in removing rust, mud, sediment, large particles, and suspended solids from the water effectively.

Stage 2: Compound mineralizing filter

Activates the water, releases mineral substance and trace elements into the filtered water.

Stage 3: Compound alkaline filter

Activates the water and changes pH range, making the filtered water alkaline and antioxidant.

Stage 4: Anti-scale activated block carbon filter

Resolves scale, making the water soften, and improve filtered water's taste.

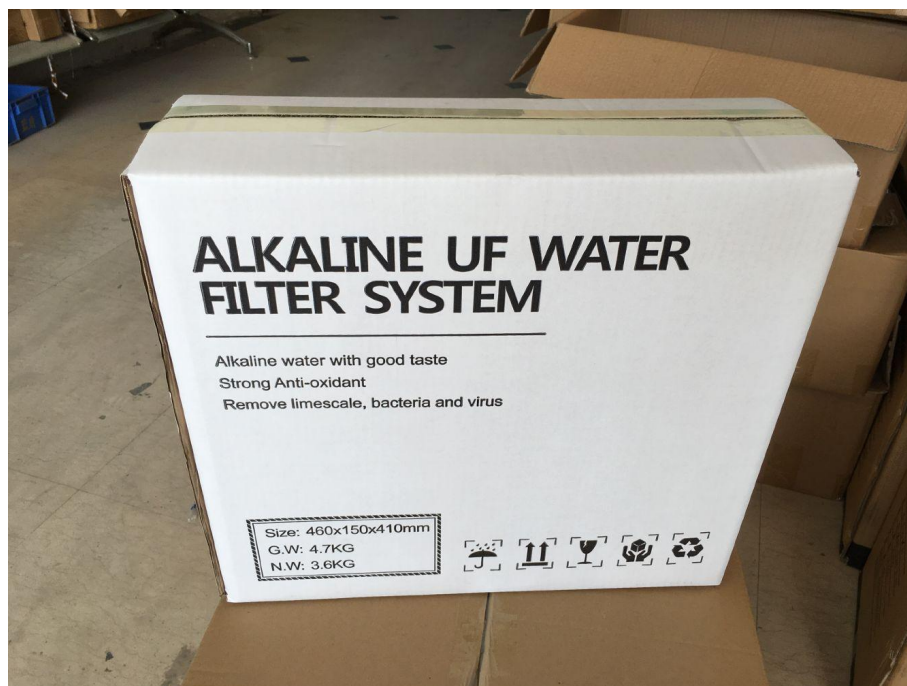

Stage 5: UF membrane filter

UF membrane filtration precision is 0.01 micron. Removes colloid, bacteria, virus, and other contaminants such as E-coli.

WellBlue 5 stages Alkaline UF water filter benefits

Natural drinking alkaline purified water
Improved health for you and your family
No power required, no water wasted
Retains essential minerals in purified water
A better design, a better quality
Unlimited direct flow of purified alkaline water
Long lasting filter cartridge
Easy to install and maintain

Package

1 set/color box, 4 sets/carton
Color box dimension: 46x15x41cm
Carton dimension: 63x48x43.5cm
GW: 21KG, NW: 19KG
